

EV's are cheaper than you think!

Most people look at the sticker prices for EVs and conclude that they are much more expensive than gas powered cars. While this may appear that way in the showroom, when you look at the complete cost of ownership, they are actually much cheaper to own. Check out this comparison of the Hyundai Kona which is available as a gas car or as an EV – the same car with different drivetrains.

	Kona SE	Kona EV SE
List Price	\$24,250	\$32,675
Fed Tax Credit		-\$7,500
State Rebate		-2,500
5 yr fuel cost	\$6,700	\$1,800
5 yr maintenance	\$2,000	\$880
Total 5 yr Cost	\$32,950	\$25,275

**You Save
~\$7,500**

Based on costs and mileage estimates from manufacturers website, gas and electricity costs in Oregon 2024, and Consumer Reports 5 year maintenance cost estimates
